## WELCOME TO THE SALE

On behalf of the entire Archives International Auctions team, I would like to personally welcome you to our 32nd auction we have held over the last nine years. We are privileged to offer another exciting selection of U.S., Chinese, Russian & Worldwide Banknotes, Scripophily, Coins and Security Printing Ephemera. There will be items of interest for every level of collector, specialist or dealer.

We are presenting the first selections from the Silicon Valley Collection of Worldwide Banknotes that was put together by an astute collector from the mid 1960's until the late 1980's with a majority of these notes having never been offered at auction previously.

We will also be offering additional rarities from the Alexander I. Pogrebetsky Family Archives of rare Chinese and Russian banknotes.

The auction will be presented in three sessions scheduled over three days beginning with Session 1's offering on April 11th of U.S. & Worldwide Banknotes, Scripophily and Security Printing Ephemera followed by a Live Internet only sale. Session 2 on April 12th will include Russian and Worldwide Banknotes, Chinese Scripophily and Coins. They will be followed by Session 3 on April 13th of over 400 lots of Chinese Banknotes with many rarities and amazing notes offered that are rarely seen at auction.

We are currently working on our summer auctions including the sale of the American Bank Note Commemoratives Inventory of Modern Souvenir cards, advertising pieces, reprint obsolete and Hawaiian banknotes and production material scheduled tentatively for the end of June to beginning of July 2016. We will also be offering additional selections from the Silicon Valley Collection of worldwide banknotes.

If you have suitable material, we are still seeking consignments for our upcoming 2016 auctions. I would like to thank everyone who has participated in our previous auctions and has helped make this auction series a resounding success.

We are looking forward to another exciting auction and hope you enjoy our current offerings.

*Best of luck,*

*Bob Schwartz*

## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

## Alexander I. Pogrebetsky

Alexander I. Pogrebetsky was born in Siberia, Russia in 1891 and died in 1952 in Israel. Pogrebetsky was an Economist and Financier by training and his vast work experience included positions in government in Siberia before the Communist takeover, as well as a position as Director of Department of Finance of "Centrosoyus" for District of Irkutsk, Zabaikal and Iaktsk Provinces and Mongolia post revolution. He later became the Interim Finance Manager of the Office of the Government of the Far East and a member of the Finance Commission and the National Constituent assembly of the Far Eastern Republic (ca,1920-1922). As an aside, the Far Eastern Republic was an early post revolution experiment in democracy in Eastern Russia (Siberia). The Constitution of the Far Eastern Republic allowed for a minimum wage; a set work week; the amount of vacation per year that citizens were promised; mandatory military service for men as well as additional rights for women; uncensored mails, telegraph and telephone; the banning of capital punishment as well as many other protections that we consider a normal part of our life.

After the communist takeover he relocated to Harbin, China (ca.1920-24) where he became Head of the Board for the Chinese Eastern Railway Company which ran from Vladivostock to Harbin until it was sold to the Japanese in 1924. Sometime after 1935 he left Harbin and moved to Tientsin, China where he co-owned a private bank. After Tientsin, he moved to Shanghai, China where he was involved in numerous business ventures including being a principal in the China Trading & Investment Co., Ltd, with offices in Shanghai and Tientsin, China.

In addition to his business background, he was also noted for his numerous studies and writings as a researcher of "Bonistics" (the Russian term for the study of Banknotes and Numismatics). He acquired most of his collection of banknotes and coins as part of his everyday business dealings as well as his seeking out interesting and scarce banknote and coin issues from his numerous business contacts and sources. Pogrebetsky was the author of several studies on the circulation of money and the money of the Far Eastern region. He is noted for writing one of the earliest banknote reference books on Chinese banknotes called "Money and currency Far East during the War and Revolution (1914-1924)", published in Harbin in 1924.

A portion of his banknote and coin collections were donated in the 1960 to 1970's by a family member to the Smithsonian.

Pogrebetsky was also very active in Jewish cultural affairs and organizations throughout his life in China. He listed on his immigration papers to Palestine that he was a member of the council of the Jewish People's Bank (Harbin, China, 1925-1934); Board of Directors of the bank (Harbin, 1935); a member of the council of the Jewish Commercial Bank (Harbin, 1929-1934); Tientsin Jewish Club "Kunst" (ND); and the Shanghai Jewish Club (ND). He also stated on his application the he worked for over 25 years in fields of Far Eastern Economy and finances and wrote several monographs on these subjects.

We are fortunate that the balance of the papers, documents and banknotes of this astute collector and researcher were, other than the donations made in the 1960-70's, held very closely by the family for the last 60 years and that it came through mostly intact and untouched. We owe Alexander and his family a debt of gratitude for preserving this numismatic treasure that can now be shared with the world.

New York, April 11th, 1865, 100 Shares, I/U stock certificate, Oil wells in middle, left with exploding torpedo down drilling shaft, S/N 8, ITASB Walter B. Roberts, In 1864, Dr. Walter Brooke Roberts, a New York dentist, was offered the opportunity to buy stock in a Pennsylvania oil well which turned out to be a complete fraud. Dr. Roberts returned from the Pennsylvania oil fields totally convinced that there was money to be made in oil, and he discussed the matter with his brother, Colonel E. A. L. Roberts. At this point Colonel Roberts told him of an invention he was working on, an explosive torpedo designed to restore the flow of wells that were no longer producing, and to increase the production of wells that were producing. The brothers immediately agreed to organize the Roberts Petroleum Torpedo Company. The torpedo consisted of a long metal cylinder filled with gunpowder and attached to a steel cable, and was carefully lowered into the well. When it reached the bottom a metal weight was dropped down the wire to set off the charge. The first test was a major success. Maine, 10 Shares, I/U, Black on green underprint, allegorical woman and cherub at left, Signed by Lee DeForest as president, VF to XF condition. Rare stock certificate signed by De Forest. NYBNC. \*Lee de Forest was an American inventor, self-described "Father of Radio", and a pioneer in the development of sound-on-film recording used for motion pictures. He had over 180 patents, but also a tumultuous career—he boasted that he made, then lost, four fortunes. He was also involved in several major patent lawsuits, spent a substantial part of his income on legal bills, and was even tried (and acquitted) for mail fraud. His most famous invention, in 1906, was the three-element "grid Audion", which, although he had only a limited understanding of how it worked, provided the foundation for the development of vacuum tube technology. ## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 18% on the hammer price is payable by the buyer to the auctioneer.
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

#### SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
